

K70 Pro

SSR Fingerprint Terminal

This is a fingerprint time & attendance terminal with access control functions, which can connect with a third party electric lock, exit button. With SSR report (Self-Service Report) stored in the time clock. The 2.8 inch TFT screen can display more information vividly, including fingerprint image and verification result, etc.

TCP/IP communication is a standard function which makes sure the data transmission between terminal and PC can be easily done within several seconds.

Internal backup battery insures the device working normally when the power cut off suddenly. It's an ideal product for SMB market.
